TRANSFER JET ST

Transfer Paper to print onto white or light T-shirts with Ink Jet Printers

Special coated paper to print your own design onto white or light coloured T-shirts, caps or any other cotton based fabric. Your image can even be printed in high resolution. After printing, transfer the carrier image onto the fabric with the use of a household iron.

Characteristic

- Suitable for Ink Jet Printer
- Instant dry coating
- Heat-Press activation
- Electric Iron activation
- High resolution
- No bleeding

Finish

- Matt finish of tranferred image

Specifications

Coating frontside	For Ink Jet
Print side	White side
Back side	Interleaving paper
Base material	Transfer Paper
Width (mm)	210
Length (mm)	297
Width (inch)	8.27
Length (inch)	11.69
Format	A4
Packing quantity	10

Folex AG, Bahnhofstrasse 92, CH-6423 Seewen-Schwyz, Tel. +41 41 819 39 39, Fax +41 41 810 01 35

Compatibility

- Useable on most large format Ink Jet printers using solvent ink systems (Eco-, Light-, Mild- Solvent inks and similar inks).
- Not recommended for printing with oil or water based inks,

Handling

- A preconditioning period of 24 hours within the printing environment is recommended.
- Heating system in printer possible up to approx. 48°C. Higher temperature may cause film deformation.
- Between 15-30°C and 30-70% r.h.
- Printer set-up: vinyl, coated paper, or similar
- Lamination: cold or heat laminates (low-temp) possible but not necessary due to water-proof prints.
- For correct feeding please follow the equipment suppliers manual.
- Ink Load: approx. 220 - 280 % (may vary according to ink system).
- Avoid fingerprints on printing side.

Storage

- Unopened in original packaging storage time is minimum 1 year after shipment (under recommended storage conditions).
- Store in a cool and dry place at a room temperature of 15 - 25°C and at a humidity of 30 - 60%.
